144 Selected Papers in Chinese (since 1981)

1. Zhenfu Cao. New Development of Cryptography, **Journal of Sichuan University (Engineering Science Edition)**(四川大学学报), 47(1), 1-12, 2015.
2. Zhenfu Cao. New progress of security protocol, **Bulletin of Chinese Association for Cryptologic Research**(中国密码学会通讯), (6), 33-35, 38, 2014.
3. Wenhao Liu, Shengbao Wang, Zhenfu Cao, and Lidong Han. Provably secure and efficient escrowable public key encryption schemes, **Journal on Communications**(通信学报), 35(7), 33-37, 2014.
4. Juan Lin, Qingshui Xue, and Zhenfu Cao. Proxy-based Immediate Attribute Revocation KP-ABE Scheme, **Computer Engineering**(计算机工程), 40(10), 20-24, 2014.
5. Hao Guo, Xiaolei Dong, and Zhenfu Cao. Identity-based Ring Signature Scheme Constructed by Cubic Residues, **Computer Engineering**(计算机工程), 39(12), 111-117, 2013.
6. Xiaoding Wang and Zhenfu Cao. A new method for optimizing cubic arithmetic circuit in GF(3^m), **J. Shanghai Jiaotong Univ.(Sci.)**(上海交通大学学报), 46(11), 1741-1745, 2012.
7. Feng Cao and Zhenfu Cao. Secure proxy multi-signature scheme in standard model. **Computer Engineering and Applications**(计算机工程与应用), 48(23), 72-76, 2012.
8. Licheng Wang, Lihua Wang, Zhenfu Cao, Yixian Yang, and Xinxin Niu. Conjugate adjoining problem in braid groups and new design of braid-based signatures. **Science in China Series F**(中国科学), 40 (2), 258-271, 2010.
9. Lei Zhang and Zhenfu Cao. An Attribute-Based Encryption Scheme Suitable for Distributed Network, **J. Shanghai Jiaotong Univ.(Sci.)**(上海交通大学学报), 44(11), 1507-1512, 2010.
10. Hai Zhang, Xiaolei Dong, Zhenfu Cao, and Feng Cao: (t, k, l)-Threshold Proxy Signature Without Random Oracle, **J. Shanghai Jiaotong Univ.(Sci.)**(上海交通大学学报), 44(8), 1031-1036, 2010.
11. Rong Ma and Zhenfu Cao. An Efficient and Full Secure Identity-Based Encryption Scheme, **J. Shanghai Jiaotong Univ.(Sci.)**(上海交通大学学报), 44(3), 389-392, 2010.
12. Le Chen and Zhenfu Cao. Approaches to Resisting Length-Based Attack, **J. Shanghai Jiaotong Univ.(Sci.)**(上海交通大学学报), 44(7), 968-974, 2010.
13. Jian Shao, Zhenfu Cao, and Lifei Wei. ID-based Strong Designated Verifier Signature Scheme, **Computer Engineering**(计算机工程), 36(8), 167-169, 2010.
14. Yuanyuan Wang, Zhenfu Cao, and Hai Huang. Stronger Security Tripartite Authenticated Key Exchange Protocol, **Computer Engineering**(计算机工程), 36(14), 141-143, 146, 2010.
15. Xiaolei Dong, Zhenfu Cao, and Licheng Wang. New designing of cryptosystems based on quadratic fields, **Science in China Series F**(中国科学), 39 (5), 526-533, 2009.
16. Zhenchuan Chai, Xiaolei Dong, and Zhenfu Cao. Identity-based signature scheme based on quadratic residues, **Science in China Series F**(中国科学), 39(2), 199-204, 2009.
17. Xiaoxin Ye, Zhenfu Cao, and Xiaohui Liang. Fair Document Exchange Protocol with Confidentiality, **Computer Engineering**(计算机工程), 35(4), 149-151, 2009.
18. Chaoliang Sun, Zhenfu Cao, and Xiaohui Liang. Threshold Proxy Re-signature Scheme, **Computer Engineering**(计算机工程), 35(4), 128-130, 2009.
19. Zaixin Liu, Xiaolei Dong, and Zhenfu Cao: Mobile Agent E-commence Based on Proxy Signature, **Computer Engineering**(计算机工程), 35(17), 126-128, 2009.
20. Yun Pan, Licheng Wang, Zhenfu Cao, and Jian Li. Lite-CA based key pre-distribution scheme in wireless sensor network, **Journal on Communications**(通信学报), 30(3), 130-134, 2009.
21. Yuan Zhou, Baoshan Qin, and Zhenfu Cao. Identity based and key insulated cryptosystem, **Journal on Communications**(通信学报), 30(4), 21-26, 2009.
22. Changxiang Shen, Huangguo Zhang, Dengguo Feng, Zhenfu Cao, Jiwu Huang. Survey of information security, **Science in China Series E**(中国科学), 37 (1), 129-150, 2007.
23. Shengbao Wang, Zhenfu Cao and Xiaolei Dong. Provably secure identity-based authenticated key agreement protocols in the standard model, **Chinese Journal of Computers**(计算机学报), 30(10), 1842-1854, 2007.
24. Minfang Lv, Zhenfu Cao. Efficient electronic cash scheme for smart card, **Computer Engineering**(计算机工程), 33(22), 172-174,189, 2007.
25. Zhao Lin, Zhenfu Cao, Xiaolei Dong, Rongxing Lu. Short designated verifier signature scheme based on self-certified cryptosystem, **Computer Engineering**(计算机工程), 33(24), 153-154, 2007.
26. Xiaolei Dong, Zhenfu Cao, Xiaohong Li. Cryptanalysis of Two Signature Schemes Based on Two Hard Problems, **Journal of Shanghai Jiaotong University**(上海交通大学学报), 40(7), 1174 -1177, 2006.
27. Qin Wang, Zhenfu Cao. Formal Model of Proxy Multi-Signature and a Construction, **Chinese Journal of Computers**(计算机学报), 29(9), 1626-1633, 2006.
28. Xiuxia Tian, Zhenfu Cao, Wenjun Ye. ID-Based Partial Delegation Proxy Multi-Signature with Warrant from Bilinear Pairings, **Acta Electronica Sinica**(电子学报), 34(12A), 2569-2570, 2006.
29. Xiuxia Tian, Zhenfu Cao. The Identity-Based Authenticated Blind Signature Protocol, **Journal of Shanghai Jiaotong University**(上海交通大学学报), 40(7), 1170-1173, 2006.
30. Xionggui Chen, Zhenfu Cao, Sheng Guo. Improvement on New IPSec-NAT Traversal Solution, **Computer Engineering**(计算机工程), 32(20), 166-167,182, 2006.
31. Sheng Guo, Zhenfu Cao, Rongxing Lu. ID-based Authenticated Encryption Scheme with Public Verifiability, **Computer Engineering**(计算机工程), 32(18), 125-126,194, 2006.
32. Xiuxia Tian, Zhenfu Cao. Identity-based Authenticated Blind Signature Scheme, **Computer Engineering**(计算机工程), 32(14), 136-137, 2006.
33. Jiandong Su, Zhenfu Cao. An Efficient Authenticated Encryption Scheme with Public Verifiability, **Computer Engineering**(计算机工程), 32(3), 167-168, 2006.
34. Ye Jin, Zhenfu Cao. A New Digital Signature Scheme Used in Mobile Agent, **Computer Engineering**(计算机工程), 32(2), 149-150, 182, 2006.
35. Haojin Zhu, Zhenfu Cao. An Elliptic Curve Dynamic Identity Authentication Scheme Based on Smart Cards, **Computer Engineering**(计算机工程), 32(2), 135-136, 208, 2006.
36. Zhenfu Cao and Qingshui Xue. New results and directions in cryptography, **Computer Education**(计算机教育), No. 1, 19-21, 2005.
37. Zhenfu Cao. New directions in the information security, **Shanghai Informatization**(上海信息化), No. 2, 12-14, 2005.
38. Zhenfu Cao, Haojin Zhu and Rongixng Lu. Provably Secure Robust Threshold Partial Blind Signature, **Science in China Series E**(中国科学), 35(12): 1254-1265, 2005.
39. Xiang Li, Xiaolei Dong, Zhenfu Cao. Blind signature scheme based on ideal class groups of quadratic fields, **Computer Applications and Software**(计算机应用和软件), Vol. 22, 34-35, 41, 2005.
40. Shanshan Duan, Zhenfu Cao, Rongxing Lu. Robust ID-Based Threshold Signcryption Scheme from Pairings, **Journal of Shanghai Jiaotong University**(上海交通大学学报), 39(12), 1946 - 1949, 2005.
41. Rengwang Su, Zhenfu Cao. Embeddings of Resolvable 4-cycle Systems, **Journal of Shanghai Jiaotong University**(上海交通大学学报), 39(10), 1715-1717, 2005.
42. Hongli Qiu, Zhenfu Cao. Forward-secure Signature Scheme Based on Strong RSA Assumption, **Computer Engineering**(计算机工程), 31(9), 64-66, 2005.
43. Xiuxia Tian, Zhenfu Cao. A New ID-based Strong Proxy Signature Scheme, **Computer Engineering**(计算机工程), 31(12), 149-150, 2005.

44. Yu Long, Zhenfu Cao. A Dynamic (k, n) Threshold Key Escrow Scheme, **Computer Engineering**(计算机工程), 31(12), 154-155, 2005.

45. Yu Long, Zhenfu Cao. Research on the LEAF Structure of Key Escrow Scheme, **Computer Engineering**(计算机工程), 31(12), 156-157, 160, 2005.

46. Dongfeng Tian, Zhenfu Cao. Proxy Signature Based on Pairing Applied in Mobile Agent, **Computer Engineering**(计算机工程), 31(18), 146-147, 2005.

47. Chunnong Zhou, Zhenfu Cao. Research on the digital signature based on the NPC combined with discrete logarithm, **China Information Security**(信息安全与通信保密), No.3, 133 -135, 2005.

48. Jiandong Su, Yuan Zhou, Zhenfu Cao. The agent signature for the instance of revert messages by the specified receiver based on ellipse curve, **China Information Security**(信息安全与通信保密), No.2, 131 - 133, 2005.

49. Zhenfu Cao, The divisibility of the class number of imaginary quadratic fields, **Chinese Ann. Math. Ser. A**(数学年刊), 25(3), 397 - 406, 2004.

50. Haifeng Qian, Zhenfu Cao, Qingshui Xue. A new threshold proxy signature scheme from bilinear pairings, **Science in China Ser. E**(中国科学), 34(6), 711 - 720, 2004.

51. Haojin Zhu, Zhenfu Cao and Yuan Zhou. An elliptic curve restrictive partially blind signature and off-line E-cash scheme, **Journal of Wuhan University (Nat. Sci. Ed.)**(武汉大学学报), 50(S1), 205 - 208, 2004.

52. Zhenfu Cao, Two classes of robust threshold key escrow schemes, **Journal of Software**(软件学报), 14(6), 1164 - 1171, 2003.

53. Zhenfu Cao, Jiguo Li, Jianzhong Li, A new (t, n) threshold signature encryption scheme with the specified receiver, **Journal of China Institute of Communications**(通信学报), 24(5), 8 - 13, 2003.

54. Jiguo Li, Zhenfu Cao, Jianzhong Li. (t, n) Threshold Shared Verification Signature Encryption Scheme with Specified Receiving Groups, **Acta Electronica Sinica**(电子学报), 31(7), 50 - 52, 2003.

55. Jiguo Li, Zhenfu Cao and Yichen Zhang, Jianzhong Li. Cryptographic analysis and modification of proxy multi-signature scheme, **High Technology Letters**(高技术通讯), 13(4), 1 - 5, 2003.

56. Jiguo Li, Zhenfu Cao, Jianzhong Li and Yichen Zhang. Present situation and progress of proxy signature, **Journal of China Institute of Communications**(通信学报), 24(10), 114 - 124, 2003.

57. Zhenfu Cao, Jiguo Li. A Threshold Key Escrow Scheme Based on ElGamal Public Key Cryptosystem, **Chinese Journal of Computers**(计算机学报), 25(4), 346-350, 2002.

58. Jiguo Li, Zhenfu Cao. Improvement of a threshold proxy signature scheme, **Journal of Computer Research and Development**(计算机研究与发展), 39(11), 1513 - 1518, 2002.

59. Jiguo Li, Zhenfu Cao. Improvement of a threshold proxy signature scheme, **Chinacrypt'02**(中国密码学学术会议'02), 169 - 177, 2002.

60. Zhenfu Cao. Error analysis and high-precision realization of fast speed recursive DFT's, **Acta Electronica Sinica**(电子学报), 29(1), 133-135, 2001.

61. Zhenfu Cao, Xiaolei Dong, Digital signature and public key cryptosystem in two primes product order subgroup of Z^*_{pq}, **Journal of Electronics and Information Technology**(电子与信息学报), 23(Suppl), 111-115, 2001.

62. Zhenfu Cao. A threshold key escrow scheme based on public key cryptosystem, **Science in China (Series E)**(中国科学), 30(4), 360-366, 2000.

63. Xiaolei Dong, Zhenfu Cao. Terai-Jesmanowicz Conjecture on the Equation $a^x + b^y = c^z$, **Chinese Ann. Math. Ser. A**(数学年刊), 21A(6), 709-714, 2000.

64. Zhenfu Cao and Biao Zhang. MC public-key cryptosystem based on Chinese Remainder Theorem, Advances in Cryptology - **Chinacrypt'2000**(中国密码学学术会议'00), Sci. Press, 29-33, 2000.

65. Biao Zhang and Zhenfu Cao. Cryptographic analysis and modification of Cao-Li public-key cryptosystem, **CCICS'99**(中国首届信息与通信安全会议'99), Proceeding, Sci. Press, 189-195, 2000.

66. Zhenfu Cao and Xiaolei Dong. On the Diophantine equation $x^3 + y^3 = Dz^2$, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), 31(2), 110-113, 1999.

67. Zhenfu Cao and F. Jia. MD error correcting block cipher systems, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), 31(1), 26-28, 1999.

68. Zhenfu Cao. On the security of the RSA based on a polynomial over finite fields Fp and a new analog of the RSA, **Journal of China Institute of Communications**(通信学报), 20(6), 15-18, 1999.

69. Zhenfu Cao and C. Jin. On the number of solutions of Znám's problem, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), 30(1), 46-49, 1998.

70. Zhenfu Cao and Xiaolei Dong. On the Diophantine equation $Ax^2 + B = y^n$, **Chinese Science Bulletin**(科学通报), 43(7), 783, 1998.

71. Zhenfu Cao. A public key cryptosystem based on a conic over finite fields Fp, Advances in cryptology-**CHINACRYPT'98**(中国密码学学术会议'98), Sci. Press, Beijing, 45-49, 1998.

72. Zhenfu Cao. The class number of the imaginary quadratic field and some Diophantine equations, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), 29(5) 36-39, 1997.

73. Zhenfu Cao. Very high speed deconvolution besed on the recursively computing DFTs, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), 29(6), 4-6, 13, 1997.

74. Zhenfu Cao. Simple groups order $2^{\alpha_1} 3^{\alpha_2} 5^{\alpha_3} 7^{\alpha_4} p^{\alpha_5}$, **Chinese Ann. Math. Ser. A**(数学年刊), 16(2), 244-250, 1995.

75. Zhenfu Cao. Divisibility of the class numbers of imaginary quadratic fields, **Acta Math. Sinica**(数学学报), 37(1), 50-56, 1994.

76. Zhenfu Cao. Diophantine equations and divisibility of class numbers of real quadratic fields, **Acta Math. Sinica**(数学学报), 37(5), 625-631, 1994.

77. Zhenfu Cao. On the Diophantine equation $Cx^2+2^mD=k^n$, **Chinese Ann. Math. Ser. A**(数学年刊), 15(2), 235-240, 1994.

78. Zhenfu Cao, M. Deng and J. Li. A elementary solution to the equation $(x(x-1)/2)^2 = y(y-1)/2$, **Chinese Science Bulletin**(科学通报), 39(7), 670, 1994.

79. Zhenfu Cao and G. Zhao. Some new MC knapsack cryptosystems, Advances in cryptology-**CHINACRYPT'94**(中国密码学学术会议'94), Sci. Press, Beijing, 70-75, 1994.

80. Zhenfu Cao. On the Diophantine equation $Cx^2 + 2^mD = y^n$, **Chinese Science Bulletin**(科学通报), 37(22), 2106, 1992.

81. Zhenfu Cao. Two new types of cryptosystems over Eisenstein's ring Z[w], **Journal of Electronics**(电子科学学刊), 14(3), 286-290, 1992.

82. Zhenfu Cao. Breaking a kind of Diophantine public key cryptosystems, **Nature Journal**(自然杂志), 15(2), 151, 1992.

83. Zhenfu Cao. 2-Levels secret key systems on secret sharing, Advances in cryptology-**CHINACRYPT'92**(中国密码学学术会议'92), Sci. Press, Beijing, 267-274, 1992.

84. Zhenfu Cao and R. Tong et al. A conjecture on exponential Diophantine equations, **Nature Journal**(自然杂志), 14(11), 872-873, 1991.

85. Zhenfu Cao. Applications of a class of Diophantine equations to Lucas sequences, **J. Math.**(数学杂志), 11(3), 267-274, 1991.

86. Zhenfu Cao. Solvability of the Diophantine equation $\frac{x^m - 1}{x - 1} = y^n$, **Chinese Quart. J. Math.**(数学季刊), 6(2), 56-62, 1991.

87. Zhenfu Cao. A new type of integral trees of diameter 5 and diameter 6, **J. Sys. Sci. & Math. Scis.**(系统科学与数学), 11(1), 20-26, 1991.

88. Zhenfu Cao. A generalization of the Schinzel-Sierpiński system of equations, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), 23(5), 9-14, 1991.

89. Zhenfu Cao. On the Diophantine equation $\frac{ax^m - 4c}{abx - 4c} = by^2$, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), suppl., 110-112, 1991.

90. Zhenfu Cao.? Probabilistic systems and its construction methods with recursive encryption structure, **Cryptology and Information**(密码与信息), (2), 1-3, 1991.

91. Zhenfu Cao and Z. Guo. Proof algorithm of the automated theorem based on the form "and-xor", **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), suppl., 113-118, 1991.

92. Zhenfu Cao. On the Diophantine equation $\frac{ax^m - 1}{abx - 1} = by^2$, **Chinese Science Bulletin**(科学通报), 35(7), 492-494, 1990.

93. Zhenfu Cao. On the equation $ax^m - by^n = 2$, **Chinese Science Bulletin**(科学通报), 35(7), 558-559, 1990.

94. Zhenfu Cao and Y. Cao. Solvability of the Diophantine equation $y^2 + D^n = x^3$, **Chinese Science Bulletin**(科学通报), 35(14), 1115-1116, 1990.

95. Zhenfu Cao and Y. Wang. Solvability of the equation $ax^m - by^n = 4$, **Nature Journal**(自然杂志), 13(11), 766, 1990.

96. Zhenfu Cao. On Fermat's last theorem, III, **Nature Journal**(自然杂志), 13(5): 314, 1990.

97. Zhenfu Cao. A new public key cryptosystem based on the kth power residue, **Journal of China Institute of Communications**(通信学报), 11(2), 80-83, 1990.

98. Zhenfu Cao and B. Zheng. A discussion about knapsack cryptosystems concealed by matrix cover, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), 22(6), 34-41, 1990.

99. Zhenfu Cao. Hugh Edgar's problem on exponential Diophantine equations, **J. Math.**(数学杂志), 9(2), 173-178, 1989.

100. Zhenfu Cao. On a kind of exponential Diophantine equations, **Chinese Quart. J. Math.**(数学季刊), 4(1), 39-45, 1989.

101. Zhenfu Cao. On Fermat's last theorem, II, **Nature Journal**(自然杂志), 12(9), 718, 1989.

102. Zhenfu Cao, R. Liu and L. Zhang. On the Diophantine equation $\sum_{j=1}^s ?\frac1{x_j} + \frac1{x_1 \cdots x_s} = 1$ and Znám's problem, **Nature Journal**(自然杂志), 12(7), 554-555, 1989.

103. Zhenfu Cao and R. Liu. A knapsack system based on MC problem, **J. App. Math. Chinese Univ.**(高校应用数学学报), 4(1), 1-5, 1989.

104. Zhenfu Cao and W. Fu. Fast recursive Fourier transformation algorithm for the length p^l, **App. Res. Computer**(计算机应用研究), 6(6), 1-2, 1989.

105. Zhenfu Cao. A kind of public key cryptosystems based on the kth power residue, **Nature Journal**(自然杂志), 12(11), 877, 1989.

106. Zhenfu Cao and G. Yang. 2-Levels (k, n) threshold secret key sharing systems, **Nature Journal**(自然杂志), 12(12), 951-952, 1989.

107. Zhenfu Cao. On the Diophantine equation $a^x + b^y = c^z$, II, **Chinese Science Bulletin**(科学通报), 33(3), 237, 1988.

108. Zhenfu Cao and Cuanshu Cao. On the equation $a^x + b^y = c^z$, **Pure and Applied Mathematics**(纯粹和应用数学), (4), 98-100, 1988.

109. Q. Sun and Zhenfu Cao. On the equation $\sum_{j=1}^s \frac1{x_j} + \frac1{x_1 \cdots x_s} = n$ and Znám's problem, **Northeast Math. J.**(东北数学), 4(1), 43-48, 1988.

110. Zhenfu Cao. A study of some Diophantine equations, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), (3), 1-7, 1988.

111. Q. Sun and Zhenfu Cao. On the equations $x^2 + D^m = p^n$ and $x^2 + 2^m = y^n$, **Journal of Sichuan University Natural Science Edition**(四川大学学报), 25(2), 164-169, 1988.

112. Zhenfu Cao. Some new public-key cryptosystems, **Acta Electronica Sinica**(电子学报), 16(4), 120-121, 1988.

113. Zhenfu Cao and H. Tang. Digital processing of signals: Algorithms and applications, **Nature Journal**(自然杂志), 11(7), 483-486, 529, 1988.

114. Zhenfu Cao and D. Wang. On Hugh Edgar's problem, **Chinese Science Bulletin**(科学通报), 32(14), 1043-1046, 1987.

115. Zhenfu Cao. On a problem of Hall, **J. Math. Res. & Exposition**(数学研究与评论), 7(3), 411 - 413, 1987.

116. Q. Sun and Zhenfu Cao. On the equation $\sum_{j=1}^s \frac1{x_j} + \frac1{x_1 \cdots x_s} = 1$, **J. Math. Res. & Exposition**(数学研究与评论), 7(1), 125-128, 1987.

117. Zhenfu Cao. Solutions of some Diophantine equations, **Nature Journal**(自然杂志), 10(2), 151, 1987.

118. Zhenfu Cao. On a problem of Rotkiewicz, **J. Math. Res. & Exposition**(数学研究与评论), 7(2), 319-320, 318, 1987.

119. Zhenfu Cao. On the equation $a^x - b^y = 2, \max (a, b) < 100$, **Northeast Math. J.**(东北数学), 3(1), 112-116, 1987.

120. Zhenfu Cao. Mordell's problem on unit fractions, **J. Math.**(数学杂志), 7(3), 245 - 250, 1987.

121. Zhenfu Cao. On Fermat's last theorem, I, **Nature Journal**(自然杂志), 10(5), 393 - 394, 1987.

122. Zhenfu Cao. On the equation $Dx^2\pm 1 = y^p, xy \ne 0$, **J. Math. Res. & Exposition**(数学研究与评论), 7(3), 414, 1987.

123. Zhenfu Cao. Exponential Diophantine equations of the form $a^x + b^y = c^z$, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), (4), 113-121,112, 1987.

124. R. Liu and Zhenfu Cao. Two new systems of decentralized management of secret key, **Journal of China Institute of Communications**(通信学报), 8(4), 10-15, 1987.

125. Q. Sun and Zhenfu Cao. On the Diophantine equation $x^p - y^p = z^2$, **Chinese Ann. Math. Ser. A**(数学年刊), 7(5), 514-518, 1986.

126. Zhenfu Cao. A necessary and sufficient condition on which Hall's problem has a solution, **Nature Journal**(自然杂志), 9(9), 720, 1986.

127. Zhenfu Cao. Common solutions of Pell's equations $x^2 - 2y^2 = 1$ and $y^2 - Dz^2 = 4$, **Chinese Science Bulletin**(科学通报), 31(6), 476, 1986.

128. Zhenfu Cao. The equation $x^2 + 2^m = y^n$ and Hugh Edgar's problem, **Chinese Science Bulletin**(科学通报), 31(7), 555-556, 1986.

129. Zhenfu Cao. On the Diophantine equation $a^x + b^y = c^z$, I, **Chinese Science Bulletin**(科学通报), 31(22), 1688-1690, 1986.

130. Q. Sun and Zhenfu Cao. On the equation $\sum_{j=1}^s \frac1{x_j} - \frac1{x_1 \cdots x_s} = 1$ and its applications, **Sci. Exploration**(科学探索), (2), 95, 1986.

131. Zhenfu Cao. The equation $a^x - b^y = (2p)^z$ and Hugh Edgar's problem, **J. Harbin Inst. Tech.**(哈尔滨工业大学学报), (3), 7-11, 1986.

132. Zhenfu Cao. On the Diophantine equation $x^p - y^p = Dz^2$, **Northeast Math. J.**(东北数学), 2(2), 219-227, 1986.

133. Zhenfu Cao. On the Diophantine equation $x^{2n} - Dy^2 = 1$, **Chinese Science Bulletin**(科学通报), 30(6), 475 , 1985.

134. Zhenfu Cao. The equation $a^x - b^y = (2p^s)^z$ and Hugh Edgar's problem, **Chinese Science Bulletin**(科学通报), 30(14), 1116-1117, 1985.

135. Z. Xu and Zhenfu Cao. On a problem of Mordell, **Chinese Science Bulletin**(科学通报), 30(7), 558-559, 1985.

136. Q. Sun and Zhenfu Cao. On the equation $\frac1{x_1} + \cdots + \frac1{x_s} - \frac1{x_1 \cdots x_s} = 1$ and its applications, **Chinese Science Bulletin**(科学通报), 30(2), 155, 1985.

137. Zhenfu Cao. On Hall's problem, **Nature Journal**(自然杂志), 8(6), 476-477, 1985.
